Swimco Service Schemes 2010

Swimco Seasonal, Super and Special Service Schemes—tailor made for pool owners !

Swimco Seasonal Service Schemes are designed to make a Pool Owner's life easier. We do the hard work of preparing the pool leaving you free to enjoy using it! You can avoid the work that you don't want to do - just tell us what needs to be done!

Service Schemes are "tailor made" for pool owners to take care of the jobs you don't want to do—only two visits a year with our Seasonal Scheme or a maintenance call every week or two with our Special Scheme—it doesn't matter, it's up to you!

Pool care by specialists!

A Swimco Service Scheme works for you—and saves money too !

A typical service visit deals with all aspects of the pool plant including checking pool fittings, pump, filter, valves, chemical equipment and heating; a few heaters may need extra specialist attention. Pool water is tested and chemicals added as needed. Pool covers cleaned or stored—wet covers can be very heavy; this work sometimes needs assistance from someone on site or an extra person with our fitter. Pool surrounds cleaned, by pre-arrangement.

... "tailor made" Service Schemes for pool owners to take care of the jobs you don't want to do

Service & maintenance work is charged at hourly rates so that you only pay for the work that is done without extra, expensive "callout charges"; we even arrange to share the cost of travelling time whenever possible. Materials and chemicals are simply charged as used and supplied.
